<b>* Advice</b>	Information that you should familiarize yourself with. Information that are useful.

### Warning

- Never attempt to modify this product. This may damage the product and may become cause of serious accidents.
- Be sure to stop the engine during work for safety reasons.
- Be sure to tighten bolts and nuts firmly.
- If abnormal noise or vibration occurs while driving, pull over the car immediately to a safe place, and then inspect and re-tighten the attaching bolts. If abnormalities persist, perform inspection and make necessary repairs immediately. If you continue to drive in this condition, damages or accidents may occur.
- Stop using this product immediately if it has defects such as deterioration and breakage, or receives a strong impact, as these conditions impair the product's original performance.
- Make sure that no part comes in contact with the battery while working.

### Caution

- This product does not improve the limit performance significantly. Always drive safely.
- Do not use this product on inapplicable vehicles or for purposes other than it is designed for. Doing so may result in damages or accidents.
- Install this product in accordance with the service manual issued by SUBARU CORPORATION for your model. Also make sure to adhere to the precautions described in this document.
- If bolts and nuts are not tightened with specified torque while installing this product, they may be damaged or become loose. Make sure to tighten them with the specified torque.
- After installing this product, the fluid should be replenished or changed at a SUBARU dealer.

### **\*Advice**

- SUBARU shall not be held liable for any direct or indirect damage due to failures or other malfunction caused by incorrect installation or handling of this product.
- SUBARU does not honor warranty claims for malfunctions of products or vehicles that occur directly or indirectly due to the installation of this product.
- Malfunctions of vehicles that could occur due to the installation of this product may not be covered by the SUBARU vehicle warranty.
- When replacing parts with this product, be sure to use genuine SUBARU parts for non-reusable parts, consumables, oil and grease.
- Product specifications are subject to change without notice.
- Installation of this product may cause deterioration in ride comfort or significant changes in driving characteristics.
