

# MULTI-MODEL (EQUIPPED WITH AUTO-DIMMING MIRROR)

## *AUTO-DIMMING MIRROR IMPROPER OPERATION*

Some customers may complain about improper operation of the auto-dimming mirror. This may be caused by an obstruction of the front and/or rear light sensor(s) (e.g. hanging a parking permit from the mirror). Use a soft cloth with mild detergent to clean the mirror. Harsh detergent may damage the front and/or rear light sensor(s).
