

REFERENCE NO: RF-16-03

DATE: May 4, 2016

SUBJECT: ALL SKYACTIV® MODELS - OIL FILTER APPLICATION

The 2016 CX-9 with the SKYACTIV®-G 2.5T engine requires a unique oil filter (PY8W-14-302) which is NOT interchangeable with other SKYACTIV® oil filters. The unique oil filter can be identified with two white bands as shown below.

CAUTION: Thread sizes are the same on all these filters. To avoid engine damage, ensure the correct part number and band design is used.
