

Table 2. Warranty Eligibility

Vehicle Population	Is the unit within the warranty period?	Is the customer concern listed under 'Fixes'?	Is the repair covered under warranty? What repair is covered?
2023-2024 Models software version (260004125D) or later	Yes	Yes	Yes. Perform OTA update, file claim for OTA repair per Table 7. USB repair is not appropriate for these units and is not covered. File a warranty claim for completing the repair and note the customer's concern in the comments section of the claim.
2023-2024 Models software version earlier than (260004125D) or with software version (260004125D)	Yes	No	No. Repairs related to issues outside of those listed in this bulletin are not eligible for warranty reimbursement.
2025-2026 Models with software version (260005054D) or (260004125D)	Yes	Yes	Yes. Perform OTA repair and file claim for OTA repair per Table 7. Unit is not eligible for reimbursement of USB repair. File a warranty claim for completing the work and note the customer's concern in the comments section of the claim.
2025-2026 Models with software version (260005054D) or (260004125D)	Yes	No	No. Repairs related to issues outside of those listed in this bulletin are not eligible for warranty reimbursement.

Fixes:

- Battery Drain while the vehicle is OFF
- Miscolored Pixels shown on Tachometer
- Custom Equalizer display accuracy
- Data loss resulting in Vehicle Identification Number (VIN) Error
- Bluetooth Connection Robustness improvements
- HomeLink Disabling Unintentionally
- CAL file update process improvement
- WiFi Disabling Unintentionally
- Automatic Volume Control (AVC) display accuracy update
- Global Positioning System (GPS) connection Robustness improvement
- Single connected I-Phone displayed twice in Device Manager

- Unintended Audio source change during Phone Call
- IFCU resetting
- Auto Time not properly setting after GPS connection
- Ride Mode Customization not able to Save based on Language selected

Enhancements:

- Support for Parts and Accessories (P&A) Amplifier update

P&A Audio Update

- A folder and instructions will be available on SIP (IFCU PNA) for vehicles that received the 260005057D OTA update and are having P&A audio installed. This will not be covered under Warranty. This is not necessary if P&A audio equipment is not being installed or if the 260005057D USB update was performed.

Over The Air (OTA) Release Dates

OTA updates will be released in two phases. Refer to Table 3.

Table 3. OTA - USB Updates

Release Phase	Affected Models	Release Date
Phase 1-OTA	2025-2026 CVO Models	March 9, 2026
Phase 2-OTA	2023-2026 Touring and 2026 Trike	March 16, 2026
Phase 2-USB	2023-later models with Skyline OS software version 2237D or earlier	March 16, 2026

Required Dealer Action

NOTE

As of May 28, 2026, all new and unsold units in your inventory built before March 11, 2026 should be updated to this software prior to being sold and delivered. For these vehicles, put M1715 in the comments section of the claim.

For customer owned vehicles, continue to add comments indicating the customer's concern as shown in the "Fixes" section of the bulletin.

Table 4. Required Dealer Action

Category	Description	Required
1	Must Perform Repair	☐
2	Repair If Presenting Symptom	☒
3	Feature Pack-Customer/Dealer Paid	☐
4	Informational Purposes Only	☐

1. Confirm Skyline™ OS software version prior to starting procedure. This is to make sure the correct update process is being applied.
