SYNC-26.2.8.3

"This software update contains the following key changes:

- New for 12" SYNC 4 screens: Video Streaming and Stingray Karaoke! Enjoy videos or sing along to on-screen lyrics while parked. When driving, passengers can scan a QR code to follow karaoke lyrics on their mobile devices. Check these new apps out in your Apps drawer.**
- In line with our commitment to transparency, we've updated your privacy settings to include more choices for certain uses of connected vehicle data, like product improvement. You can now easily manage these preferences under the Connectivity settings menu on your touchscreen.
- We've improved the reliability of Apple CarPlay and Android Auto to deliver more consistent launches and better overall integration with SYNC."
