

Sealant SikaLastomer®-714 Roof Applications

Classification	Issue Date	Number
Technical Service Bulletin	06/16/2026	7SB005-26-01A

Issue

Winnebago is implementing an improved sealant application process to enhance durability, long-term maintenance, and vehicle appearance. Moving forward, **SikaLastomer®-714** will be used as the sealant for roof-mounted components, including roof vents, skylights, and TV antennas. This change eliminates the use of self-leveling sealant around roof components, providing a cleaner, more refined appearance while reducing concerns related to cracking or discoloration commonly associated with traditional sealants.

Affected Models

WGO Model Year	Revision	Model	Model Code/Floorplan	Build Date
2026 - 2027	All	Sunflyer/Suncruiser	All	All Built Dates
2026 - 2027	All	View/Navion	All	Built After April 6, 2026
2026 - 2027	All	Ekko	All	Built After April 6, 2026

Recommended Actions

Dealers should familiarize themselves with SikaLastomer®-714 sealant and its application methods to ensure a smooth transition to the updated sealant process. Reference prior Service Bulletin 7SB002-25-01A for additional information on SikaLastomer®-714.

Implementation Details

- Sunflyer/Suncruiser application was implemented at the start of the new model build.
- View/Navion and Ekko are switched over to the new application on April 6, 2026.
- The front cap transition trim on the Sunflyer/Suncruiser will continue to use **SikaLastomer®-715** to help ensure a leak-free roof cap area.
- The perimeter roof trim of the Ekko will continue to have **SikaLastomer®-715** applied to help ensure a leak-free roof.

Note: Sealants must be inspected every 6 months and replaced if necessary.

Parts Information

Winnebago Part Number	Part Description	Package Size
344967-01-01A	SikaLastomer®-714	10-Ounce Cartridges

If You Need Assistance

Visual Examples

The visual examples below show the difference between the updated SikaLastomer®-714 application and the previous self-leveling sealant appearance.

Previously Applied SikaLastomer®-715 (Self-Leveling)

Self-Leveling Example

Currently Applied SikaLastomer®-714

NO Self-Leveling Example

The use of SikaLastomer®-714 Sealant removes the necessity of self-leveling and presents a cleaner, more aesthetically pleasing finish.
