E4 Cayenne Launch Tools

USA Only

Vehicle Type: Cayenne (X1A/X1B) E4

Subject: MY 2026 Cayenne EV Launch Tools

Information: Porsche Special Tools & Equipment has identified the need for new tooling to support the new 2026 Cayenne EV. This package will be delivered via automatic shipment as Minimum Required Tools (MRT).

Some of the tools in this package (marked DELAYED - TBD) are delayed by the manufacturer. They will ship out as stock becomes available. PPN will be updated for each phase.

If a delayed tool is needed for a repair on a customer car, open a Special Tools PRMS to request an emergency tool.

Shipment from the PDC will start on **July 6, 2026**.

This auto-ship package includes 39 tools.

Important Notice:

Technical Bulletins issued by Porsche Cars North America, Inc. are intended only for use by professional automotive technicians who have attended Porsche service training courses. They are written to inform those technicians of conditions that may occur on some Porsche vehicles, or to provide information that could assist in the proper servicing of a vehicle. Porsche special tools may be necessary in order to perform certain operations identified in these bulletins. Use of tools and procedures other than those Porsche recommends in these bulletins may be detrimental to the safe operation of your vehicle, and may endanger the people working on it. Properly trained Porsche technicians have the equipment, tools, safety instructions, and know-how to do the job properly and safely. Part numbers listed in these bulletins are for reference only. The work procedures updated electronically in the Porsche diagnostic and testing device take precedence and, in the event of a discrepancy, the work procedures in the Porsche Tester are the ones that must be followed.
