Product Change Notice - Ramp Door Weight Rating Labels

Dear Valued Customer:

As a result of the updated requirements for Ramp Door products as documented in the 2026 edition of the RVIA RVEC-1 specification, and to be in compliance, Lippert will be modifying the weight rating labels of two of our most popular doors. The 3000 series door will now list a weight rating of 2,000 pounds and the 5000 series door will now list a weight rating of 3,250 pounds.

PLEASE NOTE: Both Lippert 3000 Series ramp doors and 5000 Series ramp doors remain capable of loading to total max weight of 3000 and 5000 lbs, respectively. The product's actual strength and construction have not changed. The weight rating change implements a stated safety factor for the load conditions as required by RVEC-1.

This label change will happen on orders due on or after July 13th in order for our customers to be RVIA compliant by September 1st.

In the weeks and months ahead, Lippert will be reviewing additional improvements in ratings/costs as well as enhanced test apparatus to offer better solutions for the changing customer demand around their toy haulers. As side by sides, golf carts and other "toys" continue to get larger it is a priority for us to stay ahead of that demand.

CURRENT

⚠ CAUTION | ATTENTION | PRECAUCIÓN

MAXIMUM TOTAL LOAD ON THE RAMP MUST NOT EXCEED 3,000 LBS	LA CHARGE TOTALE MAXIMALE SUR LA RAMPE NE DOIT PAS DÉPASSER 1,360 KG
EACH WHEEL CONTACT LOAD MUST NOT EXCEED 1,000 LBS TO PREVENT SINGLE POINT OVERLOADING	LA CHARGE SUR CHAQUE ROUE NE DOIT PAS DÉPASSER 454 KG AFIN D'ÉVITER UNE SURCHARGE SUR UN SEUL POINT
