## Software Update for RCM, UWB and SBCM

Telluride | August 28 2026

This Over-the-Air (OTA) software update is designed to update the Roof Control Module (RCM), Ultra-Wideband (UWB) and Side Body Control Module (SBCM) logic of certain 2027 Telluride vehicles. This update is designed to improve the following.

- Improves the controller type determination logic to remedy the sunroof operation anomaly.
- The connection and controller logic between Digital Key and Ultra Wideband-supported smartphone devices has been improved to reduce 12V battery consumption.
- Improves the Side Body Control Module (SBCM) to reduce noise that may occur during the folding and unfolding of the outside mirrors.
