## Technical Service Bulletin

Transaction No.: 2083082/1

TT 66-26-01 - Rear Lid (Liftgate) Water Intrusion through Spoiler

### Condition

#### ATTENTION:

**THIS IS A TECH TIP, NOT A TECHNICAL BULLETIN.**

**TECH TIPS ARE NOT ASSOCIATED WITH WARRANTY CLAIMING.**

#### Applicable Vehicles

| VW Model(s) | Year | Eng. Code | Trans. Code | VIN Range From | VIN Range To |
|-------------|------|-----------|-------------|----------------|--------------|
| Tiguan      | 2026 | All       | All         | All            | All          |

#### Revision Table

| Instance Number | Published Date | Version Number | Reason For Update    |
|-----------------|----------------|----------------|----------------------|
| 2083082/1       | 8/20/2026      | TT 66-26-01    | Original publication |

### Technical Background

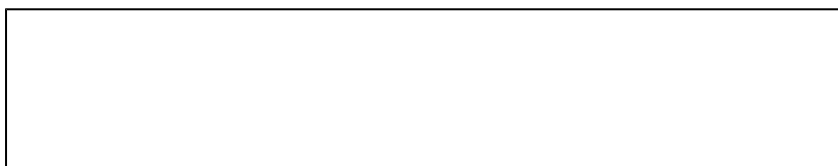

Water is leaking into the rear hatch or spare tire well. The water intrusion is due to foam block(s) placement on the rear lid spoiler installed incorrectly or shifting leading to poor sealing condition.

### Production Solution

N/A.

### Service

Remove the rear lid spoiler and inspect the foam block(s) placement on the spoiler. If the foam(s) are found to be out of position, order a rear lid spoiler foam repair kit Part # 57N898940. Remove the incorrectly placed foam block(s), clean the surface area and install the foam block(s) centered to the area(s) highlighted in green.
