SPTL 2608

Q2 2026 Software Spec Update Available

USA Only

Vehicle Type: All Porsche

Subject: Alignment Spec Update to 2026.0.1

Information: The Spec Update 2026.0.2 can be downloaded directly from PPN

Update

- Installation:
1. Download the .zip from PPN to your workshop PC and extract all files.
 2. Move the .exe file from the .zip folder to a minimum 1 Gig blank USB stick.
 3. Switch the Windows user of the VAS 6292 from Technician to Manager. Password "vagadm" is needed.
 4. Open task manager and close the Alignment software.
 5. Insert the USB stick into the VAS 6292 PC
 6. Open file explorer and start the .exe program on the USB stick.
 7. Follow the .pdf instruction included in the .zip file to update the software.

Items

Needed:

<u>Tool Number</u>
VAS 6292
VAS 6292/9

Important Notice:

Technical Bulletins issued by Porsche Cars North America, Inc. are intended only for use by professional automotive technicians who have attended Porsche service training courses. They are written to inform those technicians of conditions that may occur on some Porsche vehicles, or to provide information that could assist in the proper servicing of a vehicle. Porsche special tools may be necessary in order to perform certain operations identified in these bulletins. Use of tools and procedures other than those Porsche recommends in these bulletins may be detrimental to the safe operation of your vehicle, and may endanger the people working on it. Properly trained Porsche technicians have the equipment, tools, safety instructions, and know-how to do the job properly and safely. Part numbers listed in these bulletins are for reference only. The work procedures updated electronically in the Porsche diagnostic and testing device take precedence and, in the event of a discrepancy, the work procedures in the Porsche Tester are the ones that must be followed.
