

SSM 55162 2026 Nautilus - Rear License Plate Bracket Not Needed - Built On Or After 07-Apr-2026

All 2026 Nautilus vehicles built on or after 07-Apr-2026 will no longer come with a plastic rear license plate bracket as part of the loose items checklist. The rear liftgate has been updated to no longer require the license plate bracket, and the license plate can be attached directly to the liftgate. No additional actions should be taken to install the license plate.
