On June 26, 2015, GM dealers were advised via GM GlobalConnect of upcoming safety recall 15042. This product field action involved certain 2006-2010 Hummer H3 and 2009-2010 Hummer H3T vehicles.

As required by the National Highway Traffic Safety Agency (NHTSA), GM will begin notifying involved customers of this safety recall on August 5, 2015. This letter will advise customers that parts are not currently available and that they will receive another letter when parts become available. A copy of the letter is attached to this message.

This is a courtesy notification to dealers. Dealers will be advised when the recall bulletin is scheduled for release.

The Investigate Vehicle History screen in the Global Warranty Management system was updated for this upcoming safety recall. This action has been taken to assist dealers with determining which vehicles are involved so they can properly respond to customer inquiries. Please note the "N/A" under Release Date and the "Incomplete – Remedy Not Yet Available" message under Status. This means release of the recall bulletin is still pending and dealers should not attempt to perform any repairs at this time.
