Subject: Recall 165: Santa Fe Sport Driver's Seat Belt Anchor Bolt (TSB #17-01-048)

IMPORTANT Dealer Stock and Retail Vehicles

As required by federal law, dealers must not deliver new vehicles for sale or for lease to customers until all open recalls have been performed. Dealers should also perform all open recalls on used vehicles, demo and rental vehicles prior to placing them into customer use and whenever an affected vehicle is in the shop for any maintenance or repair.

Affected Vehicles

Hyundai has launched a safety recall in the United States to verify the proper connection between the driver's seat belt anchor and to the vehicle's inner sill structure on certain Model Year 2017 and 2018 Hyundai Santa Fe Sport vehicles.

Description

The driver's seat belt anchor in the Hyundai Santa Fe Sport is attached to the vehicle's inner sill structure with a bolt. The bolt may not have been properly torqued during vehicle assembly. If the driver's seat belt detaches from the anchor point in a collision, the risk of injury to the occupant is increased.

NOTE: This issue does not affect the front passenger seat belt assembly.
