Why are you receiving this notice?

On your vehicle, the electronic throttle body may develop contamination and result in the vehicle entering a protective low-speed mode accompanied by illumination of the wrench or service engine soon indicators (shown below). In this mode, while engine power and vehicle speed are reduced, the power steering, power braking, lighting, and climate control systems remain fully functional.

What will Lincoln and your dealer do?

In the interest of customer satisfaction, the Lincoln Motor Company has authorized your dealer to replace the electronic throttle body free of charge (parts and labor) under the terms of this program.

How long will it take?

The time needed for this repair is less than one-half day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.

What should you do?
