Affected vehicles are identified in OASIS and FSA VIN Lists.

**REASON FOR THIS PROGRAM**

In all of the affected vehicles, the electronic throttle body internal motor contacts may develop contamination resulting in increased electrical resistance. If this condition is present, the malfunction indicator lamp will illuminate, diagnostic trouble codes P2111 and P2112 will set, and the vehicle may enter a Failure Mode Effects Management (FMEM) of default throttle position with fixed RPM. In this mode, while engine power and vehicle speed are reduced, the power steering, power braking, lighting, and climate control systems remain fully functional.

**New! SERVICE ACTION**

Before demonstrating or delivering any new in-stock vehicles involved in this program, dealers are to replace the ETB. This service must be performed on all affected vehicles at no charge to the vehicle owner.

**NOTE**: Vehicles that previously received a PCM reprogram are now eligible for ETB replacement under this program and are identified in OASIS.

**New! OWNER NOTIFICATION MAILING SCHEDULE**

Owner letter mailing began the week of October 10, 2016, and is expected to be completed the week of October 31, 2016. Dealers should repair any affected vehicles that arrive at their dealerships, whether or not the customer has received a letter.

OASIS ACTIVATION
OASIS will be activated on September 14, 2016.

FSA VIN LISTS ACTIVATION
FSA VIN Lists will be available through https://web.fsavinlists.dealerconnection.com on September 14, 2016. Owner names and addresses will be available by November 10, 2016.

NOTE: Your FSA VIN Lists may contain owner names and addresses obtained from motor vehicle registration records. The use of such motor vehicle registration data for any purpose other than in connection with this program is a violation of law in several states, provinces, and countries. Accordingly, you must limit the use of this listing to the follow-up necessary to complete this service action.

SOLD VEHICLES
- Owners of affected vehicles will be directed to dealers for repairs.
- Immediately contact any of your affected customers whose vehicles are not on your VIN list but are identified in OASIS. Give the customer a copy of the Owner Notification Letter (when available) and schedule a service date.
- Correct other affected vehicles identified in OASIS which are brought to your dealership.
- Dealers are to prioritize repairs of customer vehicles over repairs of new and used vehicle inventory.

STOCK VEHICLES
- Correct all affected units in your new vehicle inventory before delivery.
- Use OASIS to identify any affected vehicles in your used vehicle inventory.

TITLE BRANDED / SALVAGED VEHICLES
Affected title branded and salvaged vehicles are eligible for this service action.

ADDITIONAL REPAIR (LABOR TIME AND/OR PARTS)
Additional repairs identified as necessary to complete the FSA should be managed as follows:
- For vehicles within new vehicle bumper-to-bumper warranty coverage, follow existing warranty and policy guidelines for related damage claims. No SSSC approval is required for these vehicles:
  - Ford vehicles – 3 years or 36,000 miles
  - Lincoln vehicles – 4 years or 50,000 miles
- For vehicles outside new vehicle bumper-to-bumper warranty coverage, submit an Approval Request to the SSSC Web Contact Site prior to completing the repair.
NEW! OWNER REFUNDS

- Ford Motor Company is offering a refund for owner-paid repairs covered by this program if the repair was performed before the date of the Owner Notification Letter. This refund offer expires March 14, 2017.

- Dealers are also pre-approved to refund owner-paid emergency repairs that were performed away from an authorized servicing dealer after the date of the Owner Notification Letter. There is no expiration date for emergency repair refunds. Non-covered repairs, or those judged by Ford to be excessive, will not be reimbursed.

- Refunds will only be provided for the cost associated with electronic throttle body replacement.

RENTAL VEHICLES

The use of rental vehicles is not approved for this program.
