Emission Recall 16E02  
Programa de Emisiones 16E02

Mr. John Sample  
123 Main Street  
Anywhere, USA 12345

Your Vehicle Identification Number (VIN): 12345678901234567

Ford Motor Company values you as a customer and is committed to vehicle quality and preserving the environment. Therefore, we are voluntarily recalling your vehicle, with the VIN shown above. Your vehicle may be releasing air pollutants that exceed applicable emission standards due to the installation of an incorrect service part.

**What is the issue?** Your vehicle may have been previously repaired with fuel injectors and a high pressure fuel pump that do not meet emission certification requirements for your vehicle application.

**What will Ford and your dealer do?** Ford Motor Company has authorized your dealer to inspect, and if necessary, replace the fuel injectors and high pressure fuel pump. This service will be provided free of charge (parts and labor).

**How long will it take?** The time needed for this repair is less than two days. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time. In addition, your vehicle may require an inspection to determine if parts need to be ordered.

**What should you do?** Please call your dealer without delay and request a service date for Emission Recall 16E02. Provide the dealer with the VIN, which is printed near your name at the beginning of this letter.  
If you do not already have a servicing dealer, you can access [www.Fordowner.com](http://www.Fordowner.com) for dealer addresses, maps, and driving instructions.  
Ford Motor Company wants you to have this recall completed on your vehicle. The vehicle owner is responsible for making arrangements to have the work completed.

**Do you need a rental vehicle?** Your dealer is authorized to provide a rental vehicle for your personal transportation at no charge (except for fuel and insurance) while your vehicle is at the dealership for repairs. Please see your dealer for guidelines and limitations.

**What if you no longer own this vehicle?**

If you no longer own this vehicle, and have an address for the current owner, please forward this letter to the new owner.

You received this notice because government regulations require that notification be sent to the last known owner of record. Our records are based primarily on state registration and title data, which indicate that you are the current owner.

**Can we assist you further?**

If you have difficulties getting your vehicle repaired promptly and without charge, please contact your dealership's Service Manager for assistance.

**California and Massachusetts Registration Requirements**

The State of California and the Commonwealth of Massachusetts require the completion of emission recall repairs prior to vehicle registration renewal. If your vehicle is registered in California or Massachusetts, it is subject to these requirements.

When your dealer completes this emission recall repair, you will receive a Vehicle Emission Recall Proof of Correction certificate. **Please make sure that you receive a certificate from your dealer and that you have it with you when you renew your vehicle registration.**

**It is also important for you to know that the certificate should be returned to the Department of Motor Vehicles (DMV) only if it is requested by the DMV. Otherwise, this certificate is to be held by you for your records.**

In order to ensure your full protection under emissions warranty provisions, and to avoid any inconvenience when renewing your registration, it is recommended that you have your vehicle serviced as soon as possible. Failure to do so could be determined as lack of proper maintenance of your vehicle.

Thank you for your attention to this important matter.
