**Aviso de Revisión de Cumplimiento 17C06**

Mr. John Sample  
123 Main Street  
Anywhere, USA 12345

Your Vehicle Identification Number (VIN): 12345678901234567

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Ford Motor Company has decided that your vehicle, with the VIN shown above, fails to conform to Federal Motor Vehicle Safety Standard (FMVSS) No. 102 Transmission Shift Position Sequence, Starter Interlock and Transmission Braking Effect, and FMVSS No. 114 Theft Protection and Rollaway Prevention.

We apologize for this situation and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with your dealer, is to provide you with the highest level of service and support.

**What is the issue?** Your vehicle could roll away after the transmission shift lever is placed in Park because it may have been built with a damaged park rod actuating plate.

**What is the risk?** If the parking brake is not applied, vehicle movement may occur without warning, increasing the risk of injury or crash.

**What will Ford and your dealer do?** Parts are now available to repair your vehicle. Ford Motor Company has authorized your dealer to replace the transmission park rod actuating plate, free of charge (parts and labor).

**How long will it take?** The time needed for this repair is less than one-half day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.

**What should you do?** **Until your vehicle is repaired, make sure the parking brake is applied whenever the transmission shift lever is in the Park position.** Please call your dealer without delay and request a service date for Recall 17C06. Provide the dealer with your VIN, which is printed near your name at the beginning of this letter.

**What should you do?
