Parts/Service

When scheduling and servicing vehicles under this WTN-74 Impreza Rearview Camera Image recall, please realize that it is highly likely that these same vehicles are also subject to the WTP-75 Impreza Rough Idle, No-start, Stalling recall.

Please allow time for both service procedures and set service appointments accordingly.

Of course, it should be standard procedure to check Subaru.net for open recall and service campaigns for every service vehicle, but with these brand new customers, it is even more critical that they not be inconvenienced twice.

We appreciate your support and cooperation.
