

IMPORTANT SAFETY RECALL

Service Campaign #RC000148

Dear Dealer:

This **Safety Recall Notice** is sent to you in accordance with the requirements of the United States National Traffic and Motor Vehicle Safety Act and The Canadian Motor Vehicle Safety Act and is important for your safety.

Thor Motor Coach (TMC) decided that a safety defect which relates to motor vehicle safety exists in certain 2018 models of the below listed motor homes.

It has been decided that on certain 2018 Ace, Axis, Hurricane, Vegas & Windsport motorhomes, the 7-Pin wires were not properly installed in the connector. As a result, trailer tail lamps, trailer stop lamps, trailer side marker lamps and trailer lighting will not function as intended. Failure of the stop lamps to illuminate when the brakes are applied may result in following road users being unaware of the driver's intentions, increasing the risk of a crash causing property damage and/or personal injury.

The required action is to re-wire a new trailer lighting connector.

Dealers that have stock units impacted by this recall can access the full list of affected VINs sold to their dealership by accessing the "Service Campaign" portion of the TMC Advantage Web Portal. If any unit on this list has been retail sold you are asked to notify the retail owner as soon as possible of this recall because their vehicle was not registered at the time the retail notice was mailed. Please immediately register any retail sold units on this list. **As a reminder, you are required by law to complete this recall on any stock units in inventory prior to retail sale. Any vehicle lessor receiving this notice must forward a copy to the lessee within 10 days.**
