Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG (DAG), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2017 and 2018 GLC-Class vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

On certain MY2017 and 2018 GLC300, GLC300 4Matic, and AMG GLC43 vehicles, the panoramic sunroof frontal and side panels might not meet the bonding specifications. As a consequence the panels could loosen which could lead to separation from the vehicle while driving. A separated panel could become a road hazard, increasing the risk of a crash and/or injury for following traffic.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will check the panoramic sunroof panel bonding on the affected vehicles and rework the panels, if necessary. This service will be provided free of charge. We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **approximately 30 minutes**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.

What should YOU DO?
