- A remedy is available for your vehicle. Schedule an appointment with your authorized Mercedes-Benz dealer as soon as possible. This repair will be provided free of charge.

Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG (DAG), the manufacturer of Mercedes-Benz vehicles, has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2016 and 2017 Mercedes-Benz vehicles. Our records indicate that your vehicle is included in the affected population of vehicles.

What is the CONCERN?

On certain GLC300, GLC300 4MATIC, and GLC43 AMG 4MATIC vehicles (253 platform), the low beam headlamp setting may not correspond to current production specifications. As a result, headlamp range may be reduced resulting in an insufficiently illuminated roadway, which may increase the risk of a crash.

What will your DEALER DO?

An authorized Mercedes-Benz dealer will check the headlamps and adjust them if necessary. This service will be provided free of charge. We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to approximately 30 minutes, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.
