Dear Mr. Fronckowiak:

This letter serves to acknowledge Ford Motor Company's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. **Makes/Models/Model Years:**

FORD/RANGER/2006

**Mfr's Report Date:** January 11, 2018

**NHTSA Campaign Number:** 18V-023

**Components:**

AIR BAGS:FRONTAL:DRIVER SIDE INFLATOR MODULE

**Potential Number of Units Affected:** 2,700

**Problem Description:**

Ford Motor Company (Ford) is recalling certain 2006 Ranger vehicles. Upon deployment of the driver side frontal air bag, excessive internal pressure may cause the inflator to explode.

**Consequence:**

In the event of a crash necessitating deployment of the driver's frontal air bag, the inflator could explode with sharp metal fragments striking the vehicle occupants, potentially resulting in serious injury or death.

**Remedy:**

Ford will notify owners instructing them to not drive their vehicles, and dealers will replace the front driver side air bag inflator with an alternate inflator, free of charge. The recall is expected to begin January 16, 2018. Owners may contact Ford customer service at 1-866-436-7332. Ford's number for this recall is 18S02.
