SAFETY ADVISORY 18-314

Safety Recall:

US: 18V-121

CAN: 2018-095

Dear

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2018 Crossroads Zinger and Longhorn Travel Trailers. As a result, Keystone RV is conducting a safety recall.

Reason for This Recall

It has been decided that the vehicles in the recall population may have a ground wire at the GFCI receptacle improperly installed. If the ground wire shorts, there is an increased risk of damage or fire to the unit. The vehicles included in the recall are:

**2018 Crossroads Zinger Travel Trailers
Serial Number Range: JS370824 - JS372476**

**2018 Crossroads Longhorn Travel Trailers
Serial Number Range: JS379108 - JS379203**

VINs in Your Inventory

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. Important: If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery.

Please log-in to Key Express for your list of VINs on campaign # 18-314.

Advisory Instructions

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. Please [click here for a copy of the Safety Advisory 18-314](#), which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the Safety Advisory, please feel free to contact us.

Sincerely,

KEYSTONE RV COMPANY

Rick Deisler
