## **New Safety Recall Advanced Communication – U24**

FCA US LLC (FCA US) has announced a safety recall on certain 2018 model year (GU) Alfa Romeo Stelvio vehicles.

VINs identified as being involved in this campaign are currently live and searchable.  
**Stop sale is in effect for the above-identified vehicles.**

**IMPORTANT:** Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

### **REASON FOR THIS SAFETY RECALL**

Some of the above vehicles may have been built with wiper motor software that may erroneously calculate that the wiper motor is overheating and limit the function of the motor to low speed. Under certain conditions, the windshield wiping system may be limited to low speed operation only which may reduce the driver's visibility. This reduced driver visibility may, in certain cases, result in a crash without prior warning.

The condition described above does not comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 104 S4.1.1; Windshield wiping and washing systems, which specifies the frequency requirements for a windshield wiping system.

### **SERVICE ACTION**

The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 2<sup>nd</sup> Quarter of 2018.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
