

**IMPORTANT SAFETY RECALL SC0409  
NHTSA RECALL # 18V-152**

**DEAR MACK TRUCK OWNER:**

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Mack Trucks, Inc. has decided that a defect which relates to motor vehicle safety exists in certain 2018 Anthem, Granite, and Pinnacle model vehicles manufactured from April 18, 2017 to December 18, 2017.

**SAFETY DEFECT:**

There is a potential electrical overload condition that can cause a component of the light control module (LCM) to fail.

**SAFETY RISK:**

If the LCM fails, it causes the exterior lighting of the truck and trailer to go out, certain dash lighting to go out, and the windshield wipers to stop functioning, which can increase the risk of a vehicle crash under certain conditions.

**PRECAUTIONS YOU CAN TAKE:**

The condition can only occur when the windshield wipers are on. As the consequence is severe, we strongly recommend that you make arrangements immediately to get your vehicle(s) repaired. The vehicle(s) can be driven to the repair facility **provided that the weather conditions do not require use of the windshield wipers and the exterior lights are working.** If you do not feel comfortable driving the vehicle to the service center, we ask that please contact Mack Trucks at 877-800-4945 and select “1” and we will arrange for your vehicle(s) to be towed to our service center.

**TIME REQUIRED FOR THE REPAIR:**

The time required to repair your vehicle is approximately 1 hours.

**WHAT YOU SHOULD DO:**

You should contact the nearest Mack Parts and Service Center and make an appointment. The dealer will repair your vehicle by replacing the light control module and reprogramming the module at no charge to you.
