May 2018**

Dear Valued Monaco Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

REV Recreation Group, Inc., has decided that a safety defect relating to motor vehicle safety exists in certain model year 2018 Monaco brand Marquis and Signature, Class A motorhomes, manufactured October 24, 2017 through February 28, 2018.

WHAT IS THE PROBLEM?

On motorhomes affected by this recall, the wires attached to the potentiometer for the Aurora brand heating, ventilation and air conditioning (HVAC) system may become disconnected.

If the wires become disconnected and are incorrectly reconnected, a fire may result, which may cause property damage, personal injury or death.

WHAT SHOULD YOU DO?

Please make certain your motorhome is immediately inspected and repaired by contacting an **authorized REV Recreation Group, Inc. dealer**.

Important Note: If the Aurora HVAC control panel becomes inoperable for any reason, do not use it or attempt any repairs. It must be inspected and if necessary, repaired by an authorized REV Recreation Group dealer technician.

The recall procedure should take less than one hour to complete; however, because of service scheduling times, your dealer may need the vehicle for a longer period of time. This service will be performed for you free of charge.
