**Mfr's Report Date:** April 16, 2018

**Components:**

EQUIPMENT:OTHER:LABELS

**Potential Number of Units Affected:** 483

**Problem Description:**

Nissan North America, Inc. (Nissan) is recalling certain 2016-2018 Nissan Titan, 2016 and 2018 Nissan Titan XD vehicles. Accessories installed on these vehicles reduced the load carrying capacity, however, a Load Carrying Capacity modification label was not installed, possibly allowing the vehicle to be overloaded. As such, these vehicles fail to comply with the requirements of Federal Motor Vehicle Safety Standard (FMVSS) number 110, "Tire Selection and Rims."

**Consequence:**

An overloaded vehicle can increase the risk of a crash.

**Remedy:**

Nissan will notify owners and provide a new modification label, with installation instructions, free of charge. The recall is expected to begin on June 16, 2018. Owners may contact Nissan customer service at 1-800-867-7669.

**Notes:**

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to [www.safercar.gov](http://www.safercar.gov).

Under 49 U.S.C. § 30112(a), it is illegal for anyone, including a manufacturer, distributor, dealer, or retailer to sell an item of equipment or vehicle that fails to comply with all applicable Federal motor vehicle safety standards.

Please be reminded of the following requirements:

Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).
