

Equipment Safety Recall

18146 Kidde Fire Extinguisher

Reference Number: N172134530

Release Date: April 2018
Revision: 00

Attention: It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied.

All involved vehicles that are in dealer inventory must be held and not delivered to customers, dealer traded, or used for demonstration purposes until the repair contained in this bulletin has been performed on the vehicle.

Make	Model	Model Year		RPO	Description
		From	To		
Chevrolet	Silverado HD	2009	2014		
	Express	2009	2018		
GMC	Sierra HD	2009	2014		
	Savana	2009	2018		
	5000, 6000, 7000, and 8000 Medium Duty Series	2009	2009		
Isuzu	F Series - Medium Duty	2009	2009		

Involved vehicles are marked “open” on the Investigate Vehicle History screen in GM Global Warranty Management system. This site should always be checked to confirm vehicle involvement prior to beginning any required inspections and/or repairs.

Condition	Walter Kidde Portable Equipment Inc. (“Kidde”) has decided that a defect, which relates to motor vehicle safety, exists in certain Kidde plastic-handle fire extinguishers that GM has determined may have been installed in certain 2009 – 2018 GMC Savana and Chevrolet Express vehicles, 2009 – 2014 GMC Sierra HD and Chevrolet Silverado HD vehicles, 2009 Isuzu F Series – Medium Duty, and 2008 GMC 5000, 6000, 7000, and 8000 Medium Duty Series vehicles. According to the Defect Information Report filed by Kidde (Recall No. 17E062000), the fire extinguishers may become clogged or require excessive force to activate. According to Kidde, in certain models, the nozzle may detach from the valve assembly with enough force that it could cause injury and render the product inoperable.
Correction	Dealers in possession of any vehicles subject to this recall are not to sell or deliver those vehicles until the Kidde fire extinguishers are inspected in accordance with the instructions from Kidde. If the inspection reveals that the fire extinguisher is involved in this recall, the fire extinguisher should be immediately removed from the vehicle. Replacement units should be requested directly from Kidde as set forth in this bulletin. GM will notify involved vehicle owners to check the model and serial number on their Kidde fire extinguisher and, if needed, order a replacement fire extinguisher directly from Kidde. Owners are to contact Kidde directly at 1-855-271-0773 between 8:30a.m. and 5:00p.m. ET Monday through Friday (excluding holidays), or between 9:00a.m. and 3:00p.m. ET Saturday and Sunday to check their fire extinguisher’s model and serial number. They can also visit www.kidde.com and click on “Product Safety Recalls” to order replacement fire extinguishers free of charge.

Parts

Do **NOT** order parts from GMCCA. Parts required to complete this recall will not be supplied by GMCCA. Replacement fire extinguishers must be ordered directly from Kidde. Follow the attached Kidde instructions to determine if a fire extinguisher is required and request a replacement.

Owners are to contact Kidde directly at 1-855-271-0773 between 8:30 a.m. and 5:00 p.m. ET Monday through Friday (excluding holidays), or between 9:00 a.m. and 3:00 p.m. ET Saturday and Sunday to check the serial number on their fire extinguisher. They can also visit www.kidde.com and click on “Product Safety Recall” to order replacement fire extinguishers free of charge.

Equipment Safety Recall

18146 Kidde Fire Extinguisher

* These labor codes are for use ONLY on vehicles in dealer inventory. There is no dealer action required for customer-owned vehicles. Customers should contact Kidde directly as instructed in the customer notification letter.

Service Procedure

Dealer Inventory Vehicles:

If you are in possession of an involved vehicle, you are not to sell or deliver the vehicle until you contact Kidde (contact information provided below) and follow their instructions to determine whether the Kidde fire extinguisher is subject to this recall. Kidde will need the fire extinguisher's model and serial number, which should be located on the fire extinguisher (see below figure for more details). If the fire extinguisher is involved in this recall, the fire extinguisher should be immediately removed from the vehicle. Dealers are to contact Kidde directly at 1-855-271-0773 between 8:30a.m. and 5:00p.m. ET Monday through Friday (excluding holidays), or between 9:00a.m. and 3:00p.m. ET Saturday and Sunday. Dealers can also visit www.kidde.com and click on "Product Safety Recalls" to order replacement fire extinguishers free of charge.

Customer-Owned Vehicles:

Involved vehicle owners are to check the model and serial number on their Kidde fire extinguisher and, if needed, order a replacement fire extinguisher directly from Kidde. Owners are to contact Kidde directly at 1-855-271-0773 between 8:30a.m. and 5:00p.m. ET Monday through Friday (excluding holidays), or between 9:00a.m. and 3:00p.m. ET Saturday and Sunday to check their fire extinguisher's model and serial number. They can also visit www.kidde.com and click on "Product Safety Recalls" to order replacement fire extinguishers free of charge.

The recall involves 134 models of Kidde fire extinguishers manufactured between January 1, 1973 and August 15, 2017, including some models that were previously recalled in March 2009 and in February 2015. The extinguishers were sold in red, white and silver, and are either ABC- or BC-rated. The model number is printed on the fire extinguisher label. For units produced in 2007 and beyond, the date of manufacture is a 10-digit date code printed on the side of the cylinder, near the bottom. Digits five through nine represent the day and year of manufacture in DDDYY format. Date codes for recalled models manufactured from January 2, 2012 through August 15, 2017 are 00212 through 22717. For units produced before 2007, a date code is not printed on the fire extinguisher.

- Serial Number (1) **B78866283**

4905631

- Date code **14116** (for models produced in 2007 and later) located on the back of the cylinder (2)
- Model Number (3) – Select the first model number on the list (H110G).

Dealer Responsibility – For USA (USA States, Territories, and Possessions)

It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied.

The US National Traffic and Motor Vehicle Safety Act provides that each vehicle that is subject to a recall of this type must be adequately repaired within a reasonable time after the customer has tendered it for repair. A failure to repair within sixty days after tender of a vehicle is prima facie evidence of failure to repair within a reasonable time. If the condition is not adequately repaired within a reasonable time, the customer may be entitled to an identical or reasonably equivalent vehicle at no charge or to a refund of the purchase price less a reasonable allowance for depreciation. To avoid having to provide these burdensome remedies, every effort must be made to promptly schedule an appointment with each customer and to repair their vehicle as soon as possible. In the recall notification letters, customers are told how to contact the US National Highway Traffic Safety Administration if the recall is not completed within a reasonable time.

Dealer Responsibility – All

All new, used, GM Certified Used, courtesy transportation vehicles, dealer shuttle vehicles, etc. in dealers' possession and subject to this recall must be held and inspected/repaired per the service procedure of this bulletin before customers take possession of these vehicles. Involved vehicles must be held and not delivered to customers, dealer-traded, released to auction, used for demonstration, or any other purpose.

All GM Certified Used vehicles currently in the dealers' inventory within the Certified Pre-Owned Inventory System (CPOIS) will be de-certified and must be held and remedied per the service procedure in this bulletin. Upon submitting an accepted/paid warranty transaction in the Global Warranty Management (GWM) system, the vehicle can be re-certified for sale within the CPOIS system, or once again be used in the CTP program.

Dealers are to service all vehicles subject to this recall at no charge to customers, regardless of mileage, age of vehicle, or ownership, from this time forward.

Customers who have recently purchased vehicles sold from your vehicle inventory, and for which there is no customer information indicated on the dealer listing, are to be contacted by the dealer. Arrangements are to be made to make the required correction according to the instructions contained in this bulletin.

In summary, whenever a vehicle subject to this recall enters your vehicle inventory, or is in your dealership for service in the future, you must take the steps necessary to be sure the recall correction has been made before selling or releasing the vehicle.

Dealer Reports

For dealers with involved vehicles, a listing with involved vehicles has been prepared and will be provided to U.S. dealers through the GM GlobalConnect Recall Reports. The listing may contain customer names and addresses obtained from Motor Vehicle Registration Records. The use of such motor vehicle registration data for any purpose other than follow-up necessary to complete this recall is a violation of law in several states/provinces/countries. Accordingly, you are urged to limit the use of this report to the follow-up necessary to complete this recall.

Customer Notification

General Motors will notify customers of this recall on their vehicle.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the tools, equipment, safety instructions, and know-how to do a job properly and safely. If a condition is described, **DO NOT** assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your dealer for information on whether your vehicle may benefit from the information.
