Subject: Safety Recall U-Bolts

Good Morning,

In an attempt to error on the side of safety, we're issuing a safety recall on Ford E-450 units with wheelbase modifications done between 3/6/18 and 4/18/18. A list of the affected VINs are attached where the u-bolt torque is unverified. Please let us know if you will be managing this recall or if you would like MORryde to. Please don't hesitate to contact me directly with any questions/concerns regarding this.

Thank you,
