Triple E Recreational Vehicles Recall CA#9030-1

This notice is sent to you in accordance with the requirements of the National Traffic & Motor Vehicle Safety Act. Triple E Recreational Vehicles has determined that a Safety defect which relates to motor vehicle safety exists in certain 2017 Wonder W24MB & 2018 Wonder W24MB & 2018 Wonder W24FTB models manufactured with a Ford Transit Chassis.

Description of Issue:

On your Ford vehicle, it may be possible for water to collect and splash in the driver’s side footwell area of the vehicle where the trailer module that controls trailer lighting is located. Water intrusion may cause corrosion and damage to the wiring and trailer module. Trailer module water intrusion may result in rapid flashing of the turn signals, loss of instrument cluster display, loss of heater and A/C controls, and loss of multimedia. Wiring corrosion from prolonged water intrusion could also result in an electrical short, which could cause an uncommanded seatbelt pretensioner deployment, a burning smell, and/or an increased risk of fire, including when the vehicle is parked and the ignition is off.

To Have This Modification Performed:

We request your assistance to have this Safety issue corrected. Please contact your nearest Ford dealer to have this Recall performed. Follow the enclosed information from Ford Motor Company for further assistance.

Thank you for your anticipated assistance.

Sincerely,

Brad Wall
Customer Relations/Warranty Manager
