

New Safety Recall Advanced Communication – UB3

FCA US LLC (FCA US) has announced a safety recall on certain 2018 model year (WK) Jeep® Grand Cherokee SRT and Trackhawk vehicles.

VINs identified as being involved in this campaign are currently live and searchable.
Stop sale is in effect for the above-identified vehicles.

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

IMPORTANT: Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with driver floor mats exhibiting an unacceptable amount of clearance between the mat and the accelerator pedal. A driver floor mat without an acceptable amount of clearance to the accelerator pedal may prevent the accelerator pedal from returning towards an idle state when the driver removes pressure on the pedal, causing more engine power to be requested than intended. Unintended engine power can cause a vehicle crash without prior warning. This condition may be mitigated with the brake-throttle override function: if the accelerator pedal is held in a fixed position for a certain amount of time, and then the brakes are applied, the engine will disregard the continued accelerator pedal request and the engine will return to idle, despite the position of the accelerator pedal.

SERVICE ACTION

FCA US will conduct a voluntary safety recall to inspect the driver's floor mat part number and replace the mat if it is the defective part. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 4th Quarter of 2018.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
