Re: Special Service Tool Shipment: Subaru Safety Recall: WTY-84 Valve Spring Fracturing

The following special tools are required to support the Subaru Safety Recall: WTY-84 Valve Spring Fracturing. As they become available, these tools will be shipped directly to all Subaru retailers during December and January. Each retailer will be supplied with one each of these tools at no charge.

Please store securely and refrain from using these tools until the upcoming TSB on the subject is published.

<u>Tool Number</u>	<u>Description</u>
99850AA000	Spring Replacement Tool
99850AA010	Air Adapter, Air Tube and Air Regulator
99850AA020	Bridge base and Bracket
99850AA030	Valve Spring Compression Tool, Valve Spring Remover and Installer
99850AA050	Engine Stand
