Problem Description:

Chrysler (FCA US LLC) is recalling certain 2019 RAM 1500 trucks. The seat track position sensor on the manually-adjusted passenger seats may come loose and out of position, preventing the sensor from detecting if the seat is in the full-forward position.

Remedy:

Chrysler will notify owners and dealers will inspect the passenger seat track position sensor bracket, replacing it as necessary, free of charge. The recall is expected to begin January 9, 2019. Owners may contact Chrysler customer service at 1-800-853-1403. Chrysler's number for this recall is UB7.
