Description of Defect :

Description of the Defect : Incorrect bolt lengths were shipped with the wedges.

FMVSS 1 : NR

FMVSS 2 : NR

Description of the Safety Risk : Property or personal damage may occur because of the bolts not being the correct length which would allow the bolts to either pull out of the nut or not get properly torqued.

Description of the Cause : NR

Identification of Any Warning that can Occur : NR

Supplier Identification :

Component Manufacturer

Name : NR
Address : NR
NR
Country : NR

Chronology :

7/16/2019 we noticed that inventory was off on a bolt. After researching, we realized that the incorrect bolt may have been used in the wedge kit. The safety committee agreed that this was a safety related item and agreed that a recall was necessary.

Description of Remedy :

Description of Remedy Program : MORryde is issuing a safety recall for inspection of the bolts used in the wedge kits. MORryde will pay for the inspection and the replacement bolt, if needed.

How Remedy Component Differs from Recalled Component : The correct bolt length based on the wedge kit ordered.

Identify How/When Recall Condition was Corrected in Production : All inventory was checked in house on 7/16/2019 and bolts have been confirmed in all inventory and production.

Recall Schedule :

Description of Recall Schedule : Send distributors notifications and request dealer/end user information for recall notices.

Planned Dealer Notification Date : AUG 05, 2019 - AUG 09, 2019

Planned Owner Notification Date : AUG 09, 2019 - AUG 30, 2019
