

Subarunet Announcement**To: All Subaru Retailers****From: Subaru of America, Inc.****Date: January 23, 2019****Subject: Owner Notification Schedule - Takata Recall Expansion TKA-19, TKB-19, TKC-19**

As previously announced, owner notification letters for this year's Takata recall expansion will be released in phases. Listed below is the current schedule:

- January 25, 2019:
The first release will include all TKA-19 vehicles, and all TKB-19 & TKC-19 Tribeca vehicles. Those vehicles are listed with an "Open" status in the Coverage Inquiry on subarunet.

- Subsequent phased releases:
The subsequent phased releases will include the remaining TKB-19 and TKC-19 vehicles, which will show a status of "Open – Pending Phased Mailing" in the Coverage Inquiry screen on subarunet until all official owner notification letters have been released as follows:
 - February 1, 2019 – affected 2010 model year vehicles
 - February 15, 2019 – affected 2011 MY Forester, Impreza, and Legacy vehicles
 - March 1, 2019 – affected 2011 MY Outback and WRX (including STI) vehicles
 - March 8, 2019 – affected 2012-2014 model year vehicles

As a reminder, the "Open – Pending Phased Mailing" status is not intended to discourage retailers from scheduling these repairs and will not affect the retailers' ability to file a claim for repairs performed prior to the official owner notification.
