RE: Takata Recall Campaign Priority Group (PG) UPDATE PG9 MY13 204,X204, 207	DATE: February 15, 2019

IMPORTANT RECALL INFORMATION UPDATE

Due to circumstances beyond our control in replacement parts procurement, MBUSA has filed an extension request with the National Highway Traffic Safety Administration (NHTSA) for the models included in Priority Group 9 of the Takata Recall.

- Please note that these Priority Group 9 Vehicles are located in Zone A States, and include passenger-side airbags (PAB) only.

Daimler continues to work closely with airbag manufacturers to increase availability and optimize the respective launch schedules, and will continue to provide updated information as it becomes available.

Part Availability Look-up Tool

Customers actively following part availability for their vehicle may have questions about the change in availability date. The Part Availability Look-up Tool on www.mbusa.com/recall has been updated to reflect the launch dates shown in the table below.

In response to customer questions, this table may be used to supplement the online tool. Customer letters indicating that the final remedy parts are available will be targeted according to the dates in the table below.

PG9					
Platform	Model	Position	Model Years	Volumes	New Launch Date
204	C-Class	PAB	2013	72,826	April 30, 2020
207	E-Class Cabriolet	PAB	2013	4,782	April 30, 2020
207	E-Class Coupe	PAB	2013	4,231	April 30, 2020
X204	GLK-Class	PAB	2013	21,486	April 30, 2020

Please note that all customer inquiries should be directed to the Customer Assistance Center at 1-800-FOR-MERCEDES.

Sincerely,

Gregory Gunther
