IMPORTANT SAFETY RECALL

February 2019

This notice applies to your vehicle, **VIN:** _____

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect, which relates to motor vehicle safety, exists in certain 2010-2011 model year Chevrolet Malibu vehicles. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- Your vehicle is involved in GM safety recall N182206630.
- Schedule an appointment with your GM dealer.
- This service will be performed for you at **no charge**.

Why is your vehicle being recalled?

Your vehicle is equipped with an ARC front-driver airbag inflator that could over pressurize during airbag deployment and rupture. If the front-driver airbag inflator ruptures during deployment, the airbag may not fully inflate, and the release of high-pressured gas may propel pieces of the inflator and airbag module into the occupant compartment, causing or increasing the risk of injury to occupant(s) in a crash.

What will we do?

Your GM dealer will replace the front-driver airbag module. This service will be performed for you at no charge. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 30 minutes.

What should you do?

You should contact your GM dealer to arrange a service appointment as soon as possible.

Do you have questions?

If you have questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.
