This notice applies to your Hyundai, VIN: XXXXXXXXXXXXXXXXXXXX

Dear <FirstName LastName,>

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Hyundai has decided that a defect which relates to motor vehicle safety exists in your vehicle, with the VIN shown above. Hyundai is conducting a safety recall in the United States to inspect, and if necessary, replace the engine assembly in Certain Model Year 2011 through 2013 Hyundai Tucson vehicles equipped with 2.4 liter engines produced from May 1, 2010 to December 31, 2012 by Hyundai Motor Company at the Ulsan plant in the Republic of Korea.

The purpose of this letter is to explain what the recall is about and to keep you informed of Hyundai's recall implementation plan. We are currently making preparations to implement the safety recall remedy which when available, will be performed at no cost to you. We will send you another notification when the remedy is available.

What is the problem?

The subject vehicles may have an engine oil leak from the seal between the oil pan and engine block which, if left unrepaired and operated over time, could eventually lead to engine damage. A damaged engine could lead to a high-speed stall, increasing the risk of a crash. It could also increase the risk of a vehicle fire.

What should you do in the interim?

We appreciate your patience. Hyundai is currently making preparations to implement the recall remedy. You will receive a second notification letter when the remedy is available. In the interim, if the Malfunction Indicator Light is illuminated in your vehicle, you should seek service at your Hyundai dealer as soon as possible.
