# IMPORTANT SAFETY RECALL

## Reprogram Transmission Control Module

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. FCA has decided that a defect, which relates to motor vehicle safety, exists in certain [2017 through 2019 model year (BA) FIAT Spider] vehicles.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

#### WHY DOES MY VEHICLE NEED REPAIRS?

In some vehicles <sup>[1]</sup> equipped with automatic transmissions, electrical noise in the range signal may be detected while driving in Drive mode (including "Manual" mode). Due to inappropriate control logic of the clutch control software in the Transmission Control Module (TCM), this signal noise may cause the vehicle to unexpectedly downshift, causing an abrupt deceleration of the drive wheels. **A sudden decrease in the speed of the drive wheels while driving may negatively affect the directional stability of the vehicle, increasing the risk of a loss of vehicle control, and can cause vehicle crash without prior warning.**

#### HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA will repair your vehicle <sup>[2]</sup> free of charge (parts and labor). To do this, your FIAT Studio will reprogram the transmission control module with the updated software. The estimated repair time is one hour. In addition, your FIAT Studio will require your vehicle for proper check-in, preparation, and check-out during your visit. Your time is important to us; please be aware that these steps may require more time. We recommend that you schedule a service appointment to minimize your inconvenience. Please bring this letter with you to your dealership.
