Mfr's Report Date: February 26, 2019

NHTSA Campaign Number: 19V-128

Components:

EXTERIOR LIGHTING:BRAKE LIGHTS

Potential Number of Units Affected: 28

Problem Description:

Foundation Ambulance, Inc. (Foundation Ambulance) is recalling certain 2017-2018 Type I and Type III Modular Body ambulances equipped with Whelen brake lights. Depending on the specific wiring of the vehicle, these brake lights may illuminate when the brake pedal has not been pressed. As such, these vehicles fail to comply with the requirements of Federal Motor Vehicle Safety Standard (FMVSS) number 108, "Lamps, Reflective Devices, and Associated Equipment."

Consequence:

If the brake lights incorrectly illuminate, it can confuse other drivers, increasing the risk of a crash.

Remedy:

Foundation Ambulance has notified owners and will replace the Whelen lights, free of charge. The recall began March 21, 2019. Owners may contact Foundation Ambulance customer service at 1-678-826-2219.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
