Dear Mercedes-Benz Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler AG ("DAG"), the manufacturer of Mercedes-Benz vehicles, has decided that certain Model Year ("MY") 2018-2019 GLA-Class vehicles fail to conform to Federal Motor Vehicle Safety Standard ("FMVSS") number 225 (Child Restraint Anchorage Systems). Our records indicate that your vehicle is included in the affected population of vehicles.

**What is the CONCERN?**

DAG determined that on certain MY 2018-2019 GLA-class (156 platform) vehicles, an incorrect rear seat back covering (carpet) could have been installed on the split- rear seat back. As a result, the child seat anchorage point (top tether) on the center position of the rear seat would be covered and inaccessible for use. If the upper anchorage point is covered, a child seat will not be able to be secured as intended in the center position of the rear seat, increasing the risk of injury in the event of a crash.

**What will your DEALER DO?**

An authorized Mercedes-Benz dealer will check the rear seat back covers on the affected vehicles and replace them, if necessary. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be up to **1 hour**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.
