

AMENDED DEFECT INFORMATION REPORT
Recall ID Number 19V-182
March 22, 2019

Honda is amending Defect Information Report (DIR) 19V-182 to remove approximately 7,400 vehicles from the affected vehicle population based on additional analysis performed after the DIR filed on March 8, 2019. Honda confirmed that certain affected vehicles either i) have associated warranty records indicating that a driver's airbag inflator from an alternative manufacturer (and not the subject PSDI-5D inflator) was installed during a previous recall repair, or ii) that a preceding driver's airbag inflator recall is still open on the vehicle (and already accounted for in the preceding recall). Additionally, new Honda campaign numbers were established to enhance the distribution of technical information. This amendment impacts the following reporting categories:

1. Identification of potentially affected vehicles;
2. Total number of potentially affected vehicles; and
3. Manufacturer's campaign number.

573.6(c)(2)
