SAFETY ADVISORY 19-349

Tabatha , Title

Dealer , Dealer Number

ballt@keystonerv.com

Safety Recall:**US: 19V-231****CAN: 2019-157**

Dear Tabatha

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2018-2019 Dutchmen Kodiak Travel Trailers. As a result, Keystone RV is conducting a safety recall.

Reason for This Recall

It has been decided that the vehicles in the recall population may not have sufficient tire clearance to the floor. Under certain loading and road conditions during travel, the tire may come in contact with the underside of the floor causing damage to the floor covering. Over time this condition can lead to a tire failure resulting in an increased risk of property damage and poor vehicle handling. The vehicles included in the recall are:

2018-2019 Kodiak, Models: 255BHSL, 283BHSL**Serial Number Ranges:****2018 JJ971503 - JJ973935****2019 KJ970266 - KJ971851*****VINs in Your Inventory***

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. Important: If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery.

Please log-in to Key Express for your list of VINs on campaign # 19-349.

Advisory Instructions

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. Please [click here for a copy of Safety Advisory 19-349](#) which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the Safety Advisory, please feel free to contact us.

Sincerely,

KEYSTONE RV COMPANY
