

OWNER NOTIFICATION NOTIFICACIÓN PROPIETARIO

NHTSA RECALL 19V-235

Dear Altima Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Nissan has decided that a defect which relates to motor vehicle safety exists in Model Year 2019 Nissan Altima vehicles. Our records indicate that you own or lease the Nissan vehicle identified by the VIN on the inside of this notice.

Reason for Recall Motivo del Retiro

On some of the potentially affected vehicles, an out-of-specification welding operation may cause the brake switch to be out of position, preventing the brake switch pin from making appropriate contact with the brake switch plate. If this condition occurs, it could cause the stop lamps (brake lights) to remain illuminated when the service brakes are not being applied, increasing the risk of a crash. This condition could also negate the brake-shift interlock system and allow the gear shifter to be inadvertently shifted without depressing the service brake. If this were to occur, this could increase the risk of a rollaway if the vehicle is inadvertently shifted out of the Park position.

What Nissan Will Do Qué Hará Nissan

Owners of all potentially affected vehicles are being notified to take their vehicle to a Nissan dealer where the dealer will inspect the production lot number on your vehicle's brake pedal assembly. If it is affected, the brake pedal assembly will be replaced with a new one. This free service should take around 1.5 hours to complete if the brake pedal assembly needs replacement, but your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.

What You Should Do Qué Debes Hacer

Contact any Nissan dealer at your earliest convenience to have your vehicle remedied. Please bring this notice with you to your service appointment. For more information about the recall, please visit <https://nna.secure.force.com/recall?camp=PC691>.
