

**IMPORTANT SAFETY RECALL NOTICE**  
**NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION**  
**CAMPAIGN NO: 19V-313**

May 17, 2019

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

MobilityTrans has decided that a defect which relates to motor vehicle safety exists in certain 2014-2018 Ford Transit, Dodge Promaster, and 2014-2015 Ford Econoline vehicles equipped with Freedman GO-ES Foldaway Seats, part numbers 43705, 45467, 48923, and 75719. When the back seat cushion is rotated from the stowed position to the upright position, the seat cushion may not remain locked into place when under load, such as in a crash or a sudden stop. As such, these vehicles fail to comply with the requirements of Federal Motor Vehicle Safety Standard (FMVSS) number 207, "Seating Systems," and 210, "Seat Belt Assembly Anchorages."

In the event of a crash, if the seat back moves, the seat occupant has an increased risk of injury.

Freedman Seating will repair the foldaway seat, free of charge. The expected time to complete the seat repair is 30 minutes per seat.

These seats may have been installed in one or more vehicles sold to you. Please see the following enclosures:
