### IMPORTANT SAFETY RECALL

**THIS NOTICE APPLIES TO YOUR VEHICLE, VIN: YV4AC2HL6K777777**

Dear Volvo Owner,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Volvo Car USA LLC (Volvo) on behalf of Volvo Car Group, has decided that a defect which relates to motor vehicle safety exists in certain model year 2019 S60 vehicles.

#### The reason for Recall R19938:

Volvo has identified that the rear suspension toe links may not have been tightened during assembly. This could cause a toe link to detach, which would cause a sudden change in vehicle handling. It could also cause the Electronic Stability Control (ESC) system to turn off. A sudden loss of vehicle control could increase the risk of a crash.

Your authorized Volvo retailer will inspect the rear suspension toe link flange lock nuts. If a nut is found loose, both the bolt and nut will be replaced.

***What you need to do:***

Please contact your authorized Volvo retailer for an appointment. The repair procedure will be **performed at no cost** and can take up to 30 minutes to complete. **However, the time your Volvo retailer requires to service your vehicle may be slightly longer depending on the vehicle.**

If you had previously paid for this repair to be performed, prior to receiving this letter, you may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of the problem associated with this recall. For more information, please refer to the Volvo Customer Care Center contact information in this letter.

If you no longer own the vehicle described in this letter, please help us to update our records by sending us the updated owner information. Please refer to our contact information below.

***Please contact:***
