Equipped with 6.6L, 8-cylinder engine (RPO L5D) and Engine-Block
Heater Cord (RPO K05)

To: All Medium Duty General Motors Dealers

PARTIAL CANCELLATION OF STOP DELIVERY ORDER

On April 26, 2019, General Motors issued a stop delivery of certain 2019 model year Chevrolet Silverado 4500/5500/6500 Medium Duty vehicles. We are removing 109 VINs from the population. A list of the removed vehicles is attached to this message.

At this time, General Motors is cancelling part of the Stop Delivery Order. Vehicles no longer included in the stop delivery order are updated in IVH to show no field action under N182206312 is required. These 109 VINs were determined to not be built with the engine-block heater.

The vehicles attached to this message are available for delivery.

Thank you for your assistance in this matter.
