# IMPORTANT SAFETY RECALL

## Tailgate Latch

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain [2013 – 2017 model year (D2) RAM 3500 Pickup, (DJ) RAM 2500 Pickup, (DS) RAM 1500 Pickup and some 2018 model year built before April 1, 2018 (D2) RAM 3500 Pickup, (DJ) RAM 2500 Pickup, (DS) RAM 1500 Pickup] vehicles.

#### WHY DOES MY VEHICLE NEED REPAIRS?

The tailgate latch on your vehicle <sup>[1]</sup> may have been built with a tailgate actuator limiter tab that may fracture allowing the lock rod control bracket to over-travel which may pull the lock rods and release the tailgate latches, potentially resulting in the tailgate inadvertently falling open at any time. An unintended opening of the tailgate while driving may result in a loss of unrestrained cargo from the truck bed. **Lost cargo may create a road hazard to operators and occupants of other vehicles, and can cause such vehicles to crash without prior warning.**

#### HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

According to our service records, the tailgate actuator stop block that will limit the pivot arm from over traveling and pulling on the lock rods on your vehicle has already been installed. Therefore, your vehicle has been remedied and this safety recall does not need to be performed.

**This notification is provided for your records only. There is nothing more that you need to do.**
