Subject: Update on 19V-349 X1(F48) B-Pillar Occupant Protection

RE: 19V-349 X1 B-Pillar Occupant Protection (Trim Piece)

We are pleased to inform you that the remedy has been approved and the production of the new part can begin. We will provide an update as soon as we know the part shipment schedule and ETA.

Please do not submit Recall IDS tickets or email inquiries at this time. Once we are able to begin allocating parts, we will publish the ordering procedure in the Parts Matrix and the revised bulletin (B51 17 19) in TIS.

We will continue to monitor and provide updates. We thank you for your continued support.

The Recall Implementation Team
